

Dear Resident,

Works notice
Carriageway resurfacing Scheme in Castlewood Road.
Monday 9th December 2019
(Road Closed)

Hackney Council is to carry out carriageway resurfacing works at the above location as part of the Councils Highway planned maintenance Capital works programme. The works have been organised by the Streetscene service area and will be carried out by our contract partners Volker Highways. The scheme will start on 09/12/2019 and subject to prevailing weather conditions will be completed within approximately four working days.

Subsequently, no parking will be permitted for the duration of the works, within the aforementioned location. Improvements of this nature will evidently result in some temporary disruption and inconvenience however we will do our very best to ensure that this is kept to an absolute minimum. Access for residents, businesses and emergency services will be maintained where possible.

We would ask for your understanding and co-operation to allow the works to be carried out safely. Please ensure that any vehicles you own are parked well away from the work sites (which will be identified by cones, barriers and yellow no parking signs attached to lamp columns or posts). Any vehicle found parked within the works area may be removed.

If you should have any queries or anticipate problems caused by the works please contact us on the above telephone number or email address. For any out of hours emergency contact Volker Highways on 0845 6017087.

Yours sincerely,

Melvyn Tagg
Principal Engineer
Streetscene
